"I wish I had this on my aircraft Program" (Major General, PM, SAFAQ - USAF, ret.)

They Deserve the Best!

Are you satisfied with Your Speed-to-Field?

MISSION: Deliver Years Early, Not Years Late

Program Delivery Today:
- 7-10 years overdue
- Partial specs
- $2-5X overruns
- Data Accuracy <30%
- No Interoperability

Value:
Exceptionally low
Not sustainable

Program Delivery Tomorrow:
- 3X speed (deliver early)
- 100% requirements
- <Half the current cost
- Live data 100% accuracy
- Interoperable, Joint-Enabled

Value:
Extremely high
Asymmetric advantage

Do you want dramatic Speed-to-Field with a Proven Approach?
- Achieve 3X Program Speed
- Achieve 3X Precision Delivery
